ABOUT NAKAGAWA RANCHES' AMERICAN WAGYU BEEF

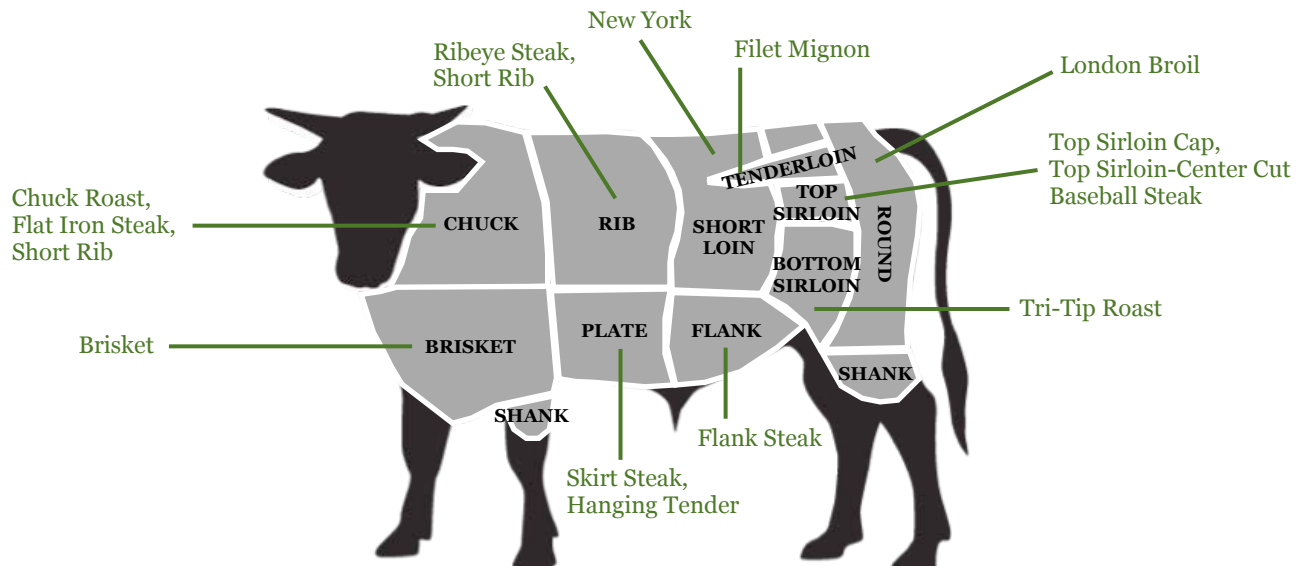

Nakagawa Ranches is a small-scale, family-owned ranching operation in California specializing in the production of American Wagyu cattle and direct meat sales.

All our beef products come from American Wagyu cattle born and raised on our ranch in Valley Springs, California and professionally finished by a ranch in Northern California. Our animals are raised on an entirely natural diet, including pasture grasses, alfalfa, oat hay, corn, barley and other various plant-based feed, which are carefully formulated to balance all essential nutrients.

Unlike conventional beef cattle operations in the United States, where most cattle are harvested at the age of 14 to 18 months, our cattle are fed for a longer period of time to allow the meat to slowly mature and are harvested at 28 to 30 months of age.

The entire procedure, from harvesting to retail cut-and-wrap, is conducted at U.S. Department of Agriculture-inspected facilities in Northern California, making our all natural American Wagyu beef truly California grown.
